MARE Message

From Ray, Jerry, myself and the MARE Executive Board, we wish all of you a very Merry Christmas & Happy New Year! We appreciate all that each of you have done and will continue to do for Missouri school children! Here's hoping that we turn the corner on COVID 19 soon and our school lives can return to some sense of normalcy! Continue to fight for what is best for your students!

MARE Superintendent Searches – MARE has been retained to conduct the following Superintendent Searches:

Superintendent Search - Schuyler Co. R-I - Dr. Paul Ricker is the Search Consultant. Paul can be reached by phone at (573) 365-4703 or by email at paulricker1@charter.net. **Application deadline is Thursday, December 31, 2020!**

Other Vacancies

Superintendent of Schools - Green Forest R-II - Access the application at www.gfr2.k12.mo.us or contact tatom@gfr2.k12.mo.us.

Syracuse-Dunbar-Avooca Public School (Syracuse, NE) - For more information access www.nrcsa.net or superintendentsearch@nrcsa.net.

MARE & LearnSafe Teaming Up to Offer Organizational Pricing

MARE and SlateXP (LearnSafe) have worked together to offer organizational pricing for the amazing software product that we were initially hoping to offer to MARE member school districts through our grant initiative. Since our grant project was not funded this cycle by the DOJ, we have collaborated to offer significantly discounted pricing to our members. LearnSafe provides student safety and peace of mind knowing that CIPA compliant monitoring is occurring on school-owned computers and that you have clear information to address concerning behavior. Access the links below for more details:

MARE Welcomes Defined Learning as New Associate Member

[Defined Learning](#) is a K-12 project-based learning (PBL) solution that provides teachers with all of the essential design elements they need to implement high-quality project-based learning; an online library of standards-aligned performance tasks, real-world videos, research resources and more. Each engaging performance task is based on a real-world situation in a STEM career to make learning relevant and to empower students to build the skills they need to succeed in college, careers, and life.

Learn More:

- [What We Offer](#)
- [How it Works](#)
- [Sample Free Project-Based Lessons for Remote Learning](#)

Sample Performance Tasks aligned to MO State Standards:

- [Kindergarten Task: Shapes Around the Neighborhood](#)
- [5th Grade Task: Aquarium Designer](#)
- [8th Grade Task: App Developer: Athletics And Body Systems](#)
- [High School Task: Biomedical Engineer: Prosthetic Limbs](#)

Our career exploration solution, [Defined Careers](#), provides students in grades 5-14 with opportunities to explore and experience careers. Defined Careers' personalized assessment guides students towards relevant hands-on projects across recommended career pathways. Our engaging pathways projects empower students to discover their interests, explore their potential, and create a pathway to a promising future.

Defined Learning also offers a range of professional learning opportunities from in-person training to online courses and virtual coaching. These professional learning experiences support educators as they deepen their understanding of PBL to meet the needs of all learners through instructional support. Districts and schools can work with our educational leadership team to create a customized, professional learning plan that meets their goals and needs.

eMINTS Grant Opportunity

The eMINTS National Center at the University of Missouri is excited to share information regarding the U.S. Department of Education's Education Innovation and Research (EIR) grant to support the development of Prosocial and Active Learning (PAL) Classrooms in Missouri. We are currently recruiting schools to participate in the program, professional development, and research study included in the grant.

In this study, 5th grade math and science teachers in thirty-six schools will participate in professional development to implement prosocial and problem-based learning strategies in their classrooms. The 5th grade teachers and students will each receive a Chromebook. Teachers will participate in 65 hours of professional development. Teachers will also receive a minimum of 6 in-class coaching sessions to support the transfer of new strategies into practice.

The professional learning sessions are based on the eMINTS Instructional Model and will focus on strategies to support prosocial behaviors and research-based instructional strategies that enhance problem-based learning experiences in a technology-rich learning environment. In addition, the Efficacy Phase will include the following data collection activities by researchers at the University of Missouri and American Institutes of Research:

- * Feedback collected through interviews with teachers and administrators about professional development and program implementation
- * Classroom observations
- * Teacher interviews
- * Teacher, administrator and student surveys

The efficacy phase of the project is divided into 2 cohorts. This random control study comprises 36 schools that will be randomized into 2 cohorts: treatment and control groups. Once recruitment is complete the districts will be randomized and placed into treatment and control groups. Treatment schools will begin participating 2021 - 2022. Control schools will participate in 2022 - 2023. Participation in the project and data submission is strictly voluntary. We strongly encourage the involvement of all stakeholders including superintendents, principals,

teachers, technology coordinators, and other stakeholders to review the PAL informational website (<https://sites.google.com/emints.org/eirpalclassrooms/home> [1]) or the project website (pal.emints.org [2]) and ask questions regarding the program so that you may make an informed decision before submitting an agreement to participate.

We will be hosting an informational webinar on Tuesday, November 17, 2020 at 1:00 p.m. and Thursday, December 10, 2020 at 1:00 p.m. These webinars will provide additional details regarding the project as well as a question and answer period. It is only necessary to attend one webinar. The webinars will be recorded and made available to anyone unable to attend either of the live sessions. To receive a link and password to the webinars, please complete this form [3] by November 16, 2020.

Thank you again for your interest and support of the Prosocial and Active Learning (PAL) Classroom project. We look forward to hearing from you!

To sign-up, complete the School Eligibility Form [4].

MARE Scholarship Information – MARE awarded a total of 43 scholarships last year including 15 - \$1,000.00 scholarships to college juniors/seniors and 28 - \$500.00 scholarships to graduating seniors from MARE member school districts. Proceeds from the annual golf tournament are our primary source of funding for scholarships. Due to the generous support of many of our Associate Members and other donors, we hope to award even more scholarships in 2021. Information has been sent out to the Missouri School Counselors Association (HS Senior Program) and to all Missouri colleges and universities that have a teacher education program. Links to both programs are found below:

[2020-2021 MARE/EdCounsel HS Senior Scholarship Program](#)

[2020-2021 MARE College Scholarship Program](#)

MARE Board Training Program Update - Please note the scheduled training opportunities below:

**** New training dates are announced as listed below:**

Friday, January 29th - Putnam Co. R-I School District, Unionville - 2:00 p.m. until 8:00 p.m.

Saturday, January 30th - Putnam Co. R-I School District, Unionville - 8:00 a.m. until 4:30 p.m.

To register, please complete the form found on our website and fax to (660) 747-8160, scan and email to ksandlin@moare.com, or go online (www.moare.com) and complete the electronic form found under Board Training.

Dates and locations may change due to unforeseen circumstances!!!

Quote of the Week

One looks back with appreciation to the brilliant teachers, but with gratitude to those who touched our human feelings. The curriculum is so much necessary raw material, but warmth is a vital element for the growing plant and for the soul of the child.

- Carl Jung

11th Annual MARE Scholarship Golf Tournament - The 11th Annual MARE Scholarship Golf Tournament will be held on Monday, July 19th at the beautiful Osage National Golf Course in Lake Ozark, Missouri. Last year's event raised over \$20,000.00 for scholarships for Missouri students seeking teaching certification with plans to return to Missouri public schools and teach. Information will be formally posted soon and sent out. We will accept the first 36 teams that enter to play!
